

# FORMULARY: PATIENT ASSISTANCE PROGRAM

Patient must bring a **printed** prescription and meet with the LCHC Patient Assistance Program (PAP) Coordinator (919-956-3876). Residents are not eligible to write for PAP medications at LCHC.

Coordinator will review the application process with the patient, inform patient of required documents in order to apply and cover patient responsibilities for being enrolled. Only the LCHC Patient Assistance Program Coordinator may enroll patients to receive PAP formulary medications dispensed by LCHC Pharmacy. Requests not processed through the Coordinator and items not on the Patient Assistance Program Formulary will be returned to the manufacturer. Requests for additional medications should be submitted via the Formulary Management Change Request form located on the LCHC Intranet.

NC HIV Medication Assistance Program (NC HMAP) and Pre-Exposure Prophylaxis (PrEP) medications are handled through the Early Intervention Clinic and LCHC Durham County Human Services Family Med Clinic. These medications are delivered to the designated ADAP pharmacy, delivered to patient home or delivered to the Durham County Health Department Pharmacy. Pre-Exposure Prophylaxis (PrEP) medications may also be accessed by LCHC Clinics via the manufacturer's PAP Program with a prescription card being mailed to the patients home.

Not all patients who apply will be approved.

Application process may take 4-8 weeks.

## Safety in Lactation

Lactation safety data from American Academy of Pediatrics ([www.aap.org](http://www.aap.org))

## Hazardous Drugs

Hazardous Drugs (HD) identified by National Institute of Occupational Safety and Health as hazardous are labeled as “**HD**”. Use caution when handling.
