Sources of Codes

ICD-10-CM (2020)-National Center for Health Statistics (NCHS)

CPT (2020)-American Medical Association (AMA)

Code on Dental Procedures and Nomenclature CDT Code (2020)-Dental Procedure Codes. American Dental Association (ADA)

Note: "X" in a code denotes any number, including the absence of a number in that place. Dashes (-) in a code indicate that additional characters are required. ICD-10-CM codes all have at least four digits. These codes are not intended to reflect whether or not a code is billable. Instead, they are used to point out that other codes in the series are to be considered.

Sources of Codes

ICD-10-CM (2020)-National Center for Health Statistics (NCHS)

CPT (2020)-American Medical Association (AMA)

Code on Dental Procedures and Nomenclature CDT Code (2020)-Dental Procedure Codes. American Dental Association (ADA)

Note: "X" in a code denotes any number, including the absence of a number in that place. Dashes (-) in a code indicate that additional characters are required. ICD-10-CM codes all have at least four digits. These codes are not intended to reflect whether or not a code is billable. Instead, they are used to point out that other codes in the series are to be considered.

UDS Report - 2020

Table 6B - Quality of Care Measures

Universal

[X]: Prenatal Care Provided by Referral Only (Check if Yes)

Section A - Age Categories for Prenatal Care Patients:

Demographic Characteristics of Prenatal Care Patients

Line	Age	Number of Patients (a)
1	Less than 15 years	0
2	Ages 15-19	25
3	Ages 20-24	45
4	Ages 25-44	142
5	Ages 45 and over	0
6	Total Patients (Sum of Lines 1-5)	212

Section B - Early Entry into Prenatal Care

Line	Early Entry into Prenatal Care	Patients Having First Visit with Health Center (a)	Patients Having First Visit with Another Provider (b)
7	First Trimester	74	0
8	Second Trimester	121	0
9	Third Trimester	17	0

Section C - Childhood Immunization Status

Line	Childhood Immunization Status	Total Patients with 2 nd Birthday (a)	Number Charts Sampled or EHR Total (b)	Number of Patients Immunized (c)
10	MEASURE: Percentage of children 2 years of age who received age appropriate vaccines by their 2 nd birthday	354	354	283

Section D - Cervical and Breast Cancer Screening

Line	Cervical Cancer Screening	Total Female Patients Aged 23 through 64 (a)	Number Charts Sampled or EHR Total (b)	Number of Patients Tested (c)
11	MEASURE: Percentage of women 23-64 years of age who were screened for cervical cancer	10609	10609	6457

Line	Breast Cancer Screening	Total Female Patients Aged 51 through 73 (a)	Number Charts Sampled or EHR Total (b)	Number of Patients with Mammogram (c)
11a	MEASURE: Percentage of women 51-73 years of age who had a mammogram to screen for breast cancer	4255	4255	2412

Section E - Weight Assessment and Counseling for Nutrition and Physical Activity of Children and Adolescents

Line	Weight Assessment and Counseling for Nutrition and Physical Activity for Children and Adolescents	Total Patients Aged 3 through 16 (a)	Number Charts Sampled or EHR Total (b)	Number of Patients with Counseling and BMI Documented (c)
12	MEASURE: Percentage of patients 3-16 years of age with a BMI percentile and counseling on nutrition and physical activity documented	5784	5784	3669

Section F - Preventive Care and Screening: Body Mass Index (BMI) Screening and Follow-Up Plan

Line	Preventive Care and Screening: Body Mass Index (BMI) Screening and Follow-Up Plan	Total Patients Aged 18 and Older (a)	Number Charts Sampled or EHR Total (b)	Number of Patients with BMI Charted and Follow-Up Plan Documented as Appropriate (c)
13	MEASURE: Percentage of patients 18 years of age and older with (1) BMI documented and (2) follow-up plan documented if BMI is outside normal parameters	24834	24834	13994

Section G - Preventive Care and Screening: Tobacco Use: Screening and Cessation Intervention

Line	Preventive Care and Screening: Tobacco Use: Screening and Cessation Intervention	Total Patients Aged 18 and Older (a)	Number Charts Sampled or EHR Total (b)	Number of Patients Assessed for Tobacco Use and Provided Intervention if a Tobacco User (c)
14a	MEASURE: Percentage of patients aged 18 years of age and older who (1) were screened for tobacco use one or more times within 24 months, and (2) if identified to be a tobacco user received cessation counseling intervention	16212	16212	14087

Section H - Statin Therapy for the Prevention and Treatment of Cardiovascular Disease

Line	Statin Therapy for the Prevention and Treatment of Cardiovascular Disease	Total Patients Aged 21 and Older at High Risk of Cardiovascular Events (a)	Number Charts Sampled or EHR Total (b)	Number of Patients Prescribed or On Statin Therapy (c)
17a	MEASURE: Percentage of patients 21 years of age and older at high risk of cardiovascular events who were prescribed or were on statin therapy	5652	5652	4382

Section I - Ischemic Vascular Disease (IVD): Use of Aspirin or Another Antiplatelet

Line	Ischemic Vascular Disease (IVD): Use of Aspirin or Another Antiplatelet	Total Patients Aged 18 and Older with IVD Diagnosis or AMI, CABG, or PCI Procedure (a)	Number Charts Sampled or EHR Total (b)	Number of Patients with Documentation of Aspirin or Other Antiplatelet Therapy (c)
18	MEASURE: Percentage of patients 18 years of age and older with a diagnosis of IVD or AMI, CABG, or PCI procedure with aspirin or another antiplatelet	934	934	830

Section J - Colorectal Cancer Screening

Line	Colorectal Cancer Screening	Total Patients Aged 50 through 74 (a)	Number Charts Sampled or EHR Total (b)	Number of Patients with Appropriate Screening for Colorectal Cancer (c)
19	MEASURE: Percentage of patients 50 through 74 years of age who had appropriate screening for colorectal cancer	8252	8252	3789

Section K - HIV Measures

Line	HIV Linkage to Care	Total Patients First Diagnosed with HIV (a)	Number Charts Sampled or EHR Total (b)	Number of Patients Seen Within 30 Days of First Diagnosis of HIV (c)
20	MEASURE: Percentage of patients whose first-ever HIV diagnosis was made by health center staff between December 1 of the prior year and November 30 of the measurement year and who were seen for follow-up treatment within 30 days of that first-ever diagnosis	9	9	9

Line	HIV Screening	Total Patients Aged 15 through 65 (a)	Number Charts Sampled or EHR Total (b)	Number of Patients Tested for HIV (c)
20a	MEASURE: Percentage of patients 15 through 65 years of age who were tested for HIV when within age range	22999	22999	12901

Section L - Depression Measures

Line	Preventive Care and Screening: Screening for Depression and Follow-Up Plan	Total Patients Aged 12 and Older (a)	Number Charts Sampled or EHR Total (b)	Number of Patients Screened for Depression and Follow-Up Plan Documented as Appropriate (c)
21	MEASURE: Percentage of patients 12 years of age and older who were (1) screened for depression with a standardized tool <i>and</i> , if screening was positive, (2) had a follow-up plan documented	23861	23861	15115

Line	Depression Remission at Twelve Months	Total Patients Aged 12 and Older with Major Depression or Dysthymia (a)	Number Charts Sampled or EHR Total (b)	Number of Patients who Reached Remission (c)
21a	MEASURE: Percentage of patients 12 years of age and older with major depression or dysthymia who reached remission 12 months (+/- 60 days) after an index event	259	259	102

Section M - Dental Sealants for Children between 6-9 Years

Line	Dental Sealants for Children between 6-9 Years	Total Patients Aged 6 through 9 at Moderate to High Risk for Caries (a)	Number Charts Sampled or EHR Total (b)	Number of Patients with Sealants to First Molars (c)
22	MEASURE: Percentage of children 6 through 9 years of age at moderate to high risk of caries who received a sealant on a first permanent molar	0	0	0

UDS Report - 2020

Health Center Health Information Technology (HIT) Capabilities

HIT

1. Does your center currently have an electronic health record (EHR) system installed and in use?:

- Yes, installed at all sites and used by all providers
- Yes, but only installed at some sites or used by some providers
- No

1a. Is your system certified by the Office of the National Coordinator for Health IT (ONC) Health IT Certification Program?:

- Yes
- No

1a1.Vendor: Epic Systems Corporation (not including OCHIN)

Other (Please specify):

1a2.Product Name: EpicCare Ambulatory Base

1a3.Version Number: February 2020

1a4.ONC-certified Health IT Product List Number: 15.04.04.1447.Epic.AM.10.1.190614

1a1.Vendor: Select one

Other (Please specify):

1a2.Product Name:

1a3.Version Number:

1b. Did you switch to your current EHR from a previous system this year?:

: Yes

: No

1c. Do you use more than one EHR or data system across your organization?:

: Yes

: No

If yes, what is the reason?:

: Second EHR/data system is used during transition to primary EHR

: Second EHR/data system is specific to one service type (e.g., dental, behavioral health)

: Second EHR/data system is used at specific sites with no plan to transition

: Other (please describe)

Other (please describe):

1d. Is your EHR up to date with the latest software and system patches?:

: Yes

: No

: Not sure

1e. When do you plan to update/install the latest EHR software and system patches?:

: a. 3 months

: b. 6 months

: c. 1 Year or more

: d. Not planned

2. Question removed.

3. Question removed.

4. Which of the following key providers/health care settings does your center electronically exchange clinical information with? (Select all that apply.):

: Hospitals/Emergency rooms

: Specialty clinicians

: Other primary care providers

: Labs or imaging

: Health information exchange (HIE)

: None of the above

: Other (please describe)

Other (please describe):

5. Does your center engage patients through health IT in any of the following ways? (Select all that apply.):

: Patient portals

: Kiosks

: Secure messaging

: Other (please describe)

: No, we do not engage patients using HIT

Other (please describe):

6. Question removed.

7. How do you collect data for UDS clinical reporting (Tables 6B and 7)?:

: We use the EHR to extract automated reports

: We use the EHR but only to access individual patient charts

: We use the EHR in combination with another data analytic system

: We do not use the EHR

8. Question removed.

9. Question removed.

10. How does your health center utilize HIT and EHR data beyond direct patient care? (Select all that apply.):

: Quality improvement

: Population health management

: Program evaluation

: Research

: Other (please describe)

: We do not utilize HIT or EHR data beyond direct patient care

Other (please describe):

11. Does your health center collect data on individual patients' social risk factors, outside of the data reportable in the UDS?:

: Yes

: No, but we are in planning stages to collect this information

: No, we are not planning to collect this information

12. Which standardized screener(s) for social risk factors, if any, do you use? (Select all that apply.):

: Accountable Health Communities Screening Tools

- : Upstream Risks Screening Tool and Guide
- : iHELLP
- : Recommend Social and Behavioral Domains for EHRs
- : Protocol for Responding to and Assessing Patients' Assets, Risks, and Experiences (PRAPARE)
- : Well Child Care, Evaluation, Community Resources, Advocacy, Referral, Education (WE CARE)
- : WellRx
- : Health Leads Screening Toolkit
- : Other (please describe)
- : We do not use a standardized screener

Other (please describe):

12a. Please provide the total number of patients that screened positive for the following:

Food insecurity: 253

Housing insecurity: 228

Financial strain: 160

Lack of transportation/access to public transportation: 550

12b. If you do not use a standardized assessment to collect this information, please indicate why. (Select all that apply.):

- : Have not considered/unfamiliar with assessments
- : Lack of funding for addressing these unmet social needs of patients
- : Lack of training for staff to discuss these issues with patients
- : Inability to include with patient intake and clinical workflow
- : Not needed
- : Other (please describe)

Other (please describe):

13. Does your center integrate a statewide Prescription Drug Monitoring Program (PDMP) database into the health information systems, such as health information exchanges, EHRs, and/or pharmacy dispensing software (PDS) to streamline provider access to controlled substance prescriptions?:

- : Yes
- : No
- : Not sure

UDS Report - 2020

Other Data Elements

Other Data Elements

1. Medication-Assisted Treatment (MAT) for Opioid Use Disorder

a. How many physicians, certified nurse practitioners, physician assistants, and certified nurse midwives,¹ on-site or with whom the health center has contracts, have obtained a Drug Addiction Treatment Act of 2000 (DATA) waiver to treat opioid use disorder with medications specifically approved by the U.S. Food and Drug Administration (FDA) for that indication?: 6

b. How many patients received MAT for opioid use disorder from a physician, certified nurse practitioner, or physician assistant, with a DATA waiver working on behalf of the health center?: 295

2. Did your organization use telemedicine to provide remote clinical care services? (*The term "telehealth" includes "telemedicine" services but encompasses a broader scope of remote health care services. Telemedicine is specific to remote clinical services, whereas telehealth may include remote non-clinical services, such as provider training, administrative meetings, and continuing medical education, in addition to clinical services.*):

- : Yes
- : No

2a1. Who did you use telemedicine to communicate with? (Select all that apply.):

- : Patients at remote locations from your organization (e.g., home telehealth, satellite locations)
- : Specialists outside your organization (e.g., specialists at referral centers)

2a2. What telehealth technologies did you use? (Select all that apply.):

- Real-time telehealth (e.g., live videoconferencing)
- Store-and-forward telehealth (e.g., secure e-mail with photos or videos of patient examinations)
- Remote patient monitoring
- Mobile Health (mHealth)

2a3. What primary telemedicine services were used at your organization? (Select all that apply.):

- Primary care
- Oral health
- Behavioral health: Mental health
- Behavioral health: Substance use disorder
- Dermatology
- Chronic conditions
- Disaster management
- Consumer health education
- Provider-to-provider consultation
- Radiology
- Nutrition and dietary counseling
- Other (Please specify)

Other (Please specify):

2b. If you did not have telemedicine services, please comment why. (Select all that apply.):

- Have not considered/unfamiliar with telehealth service options
- Policy barriers (Select all that apply)
- Inadequate broadband/telecommunication service (Select all that apply)
- Lack of funding for telehealth equipment
- Lack of training for telehealth services
- Not needed
- Other (Please specify)

Other (Please specify):

Policy barriers (Select all that apply):

- Lack of or limited reimbursement
- Credentialing, licensing, or privileging
- Privacy and security
- Other (Please specify)

Other (Please specify):

Inadequate broadband/telecommunication service (Select all that apply):

- Cost of service
- Lack of infrastructure
- Other (Please specify)

Other (Please specify):

3. Provide the number of all assists provided during the past year by all trained assisters (e.g., certified application counselor or equivalent) working on behalf of the health center (employees, contractors, or volunteers), regardless of the funding source that is supporting the assisters' activities. Outreach and enrollment assists are defined as customizable education sessions about affordable health insurance coverage options (one-on-one or small group) and any other assistance provided by a health center assister to facilitate enrollment.

Enter number of assists: 655

4. How many patients received a FDA-approved COVID-19 vaccine during the calendar year at your organization?: 0

¹ With the enactment of the Comprehensive Addiction and Recovery Act of 2016, PL 114-198, opioid treatment prescribing privileges have been extended beyond physicians to include certain qualifying nurse practitioners (NPs), physician assistants (PAs), and certified nurse midwives (CNMs).

Workforce

1. Does your health center provide health professional education/training that is a hands-on, practical, or clinical experience?:

: Yes

: No

1a. If yes, which category best describes your health center's role in the health professional education/training process? (Select all that apply.):

: Sponsor [2]

: Training site partner [3]

: Other (please describe)

Other (please describe):

2. Please indicate the range of health professional education/training offered at your health center and how many individuals you have trained in each category⁴ within the reporting year.

3. Provide the number of health center staff serving as preceptors at your health center.: 0

4. Provide the number of health center staff (non-preceptors) supporting ongoing health center training programs.: 0

5. How often does your health center implement satisfaction surveys for providers? (Select one.):

: Monthly

: Quarterly

: Annually

: We do not currently conduct provider satisfaction surveys

: Other (please describe)

Other (please describe):

6. How often does your health center implement satisfaction surveys for general staff (report provider surveys in question 5 only)? (Select one.):

: Monthly

: Quarterly

: Annually

: We do not currently conduct staff satisfaction surveys

: Other (please describe)

Other (please describe):

² A sponsor hosts a comprehensive health profession education and/or training program, the implementation of which may require partnerships with other entities that deliver focused, time-limited education and/or training (e.g., a teaching health center with a family medicine residency program).

³ A training site partner delivers focused, time-limited education and/or training to learners in support of a comprehensive curriculum hosted by another health profession education provider (e.g., month-long primary care dentistry experience for dental students).

⁴ Examples of pre-graduate/certificate training include student clinical rotations or externships. A residency, fellowship, or practicum would be examples of post-graduate training. Include non-health-center individuals trained by your health center.

BHCMIS ID: 040910 - LINCOLN COMMUNITY HEALTH CENTER, INC, DURHAM, NC

Date Requested: 04/05/2021 7:22 AM EST

Program Name: Health Center 330

Date of Last Report Refreshed: 04/05/2021 7:22 AM EST

Submission Status: Review In Progress

UDS Report - 2020

Data Audit Report

Table 3B-Demographic Characteristics

Edit 07292: Patients in Question - A high proportion of Patients by Sexual Orientation are reported on Table 3b Line 18a column (a), Unknown (85.49)%. On this line, report patients for whom the health center does not know the sexual orientation. Please correct or explain.

Related Tables: Table 3B(UR)

William Seagroves (Health Center) on 02/12/2021 6:48 AM EST: Lincoln clinical staff is uncomfortable asking the questions. Those who self identify are updated in the EHR.

Edit 07247: Unreported/Refused to Report greater than 25% of Total Patients - Patients reported on the 'Unreported/Refused to Report' Line 7 (13200) is greater than 25% of total patients (Line 8) (34652). Please correct or explain.

Related Tables: Table 3B(UR)

William Seagroves (Health Center) on 02/12/2021 6:44 AM EST: Lincoln does ask each patient on its registration form about race and ethnicity. The issue is that many of our patients who are Spanish speaking do not know how to answer the question. In Central and South American countries these questions are not asked and patients do not know how to answer. Many choose Refuse to report.

Edit 07291: Patients in Question - A high proportion of Patients by Gender Identity are reported on Table 3b Line 25a column (a), Unknown (84.21)%. On this line, report patients for whom the health center does not know the gender identity. Please correct or explain.

Related Tables: Table 3B(UR)

William Seagroves (Health Center) on 02/12/2021 6:47 AM EST: Lincoln clinical staff is uncomfortable asking the questions. Those who self identify are updated in the EHR.

Edit 06166: Inter-Year Change in Patients - Proportion of Hawaiian/Other Pacific Islanders differs substantially from last year. CY (1.29)%; Prior Year (0.27)%. Please correct or explain.

Related Tables: Table 3B(UR)

William Seagroves (Health Center) on 02/12/2021 6:51 AM EST: Beginning 2020, Lincoln reeducated staff on the importance of selecting the proper Race and Ethnicity. We believe this is the reason why the numbers have increased.

Edit 06167: Inter-Year Change in Patients - Proportion of American Indian/Alaska Natives differs substantially from last year. CY (0.60)%; Prior Year (0.23)%. Please correct or explain.

Related Tables: Table 3B(UR)

William Seagroves (Health Center) on 02/12/2021 6:50 AM EST: Beginning 2020, Lincoln reeducated staff on the importance of selecting the proper Race and Ethnicity. We believe this is the reason why the numbers have increased.

Table 4-Selected Patient Characteristics

Edit 06116: Inter-year change in patients - The percentage of Dually eligible patients to total Medicare patients has significantly decreased when compared to prior year. Current Year ((27.90)%, (1385)); Prior Year ((39.50)%, (1268)). Please review the insurance reporting to ensure the information reported is patient's primary medical care insurance. Please correct or explain.

Related Tables: Table 4(UR)

William Seagroves (Health Center) on 02/12/2021 7:00 AM EST: Lincoln believes that many of the patients who would qualify for Medicaid were unable to apply for Medicaid whether in person or via the internet due to fears of COVID-19.

Edit 04132: Inter-year Change in Patients - There is a decrease in the number of Homeless patients reported on Line 23 Column (a) (353) from prior year Line 23 Column (a) (416) . Please correct or explain.

Related Tables: Table 4(UR)

William Seagroves (Health Center) on 02/12/2021 1:32 PM EST: The shelter in which we are based is at roughly half capacity since the pandemic started to allow for increased social distancing. This means that clients are seeking homeless services in other location. Our walk-in patient numbers appear to be down. Most of our new unique clients first initiate care in our clinic on a walk-in basis, so our unique client numbers are also down. This is expected as vaccination becomes more widespread and shelter capacity gradually returns to regular levels.

Edit 06103: School Based Health Center Patients in Question - On Universal - There was a (-66.58) % change in School Based Health Center patients this year compared to the prior year on line 24. Please correct or explain.

Related Tables: Table 4(UR)

William Seagroves (Health Center) on 02/12/2021 7:03 AM EST: The Hillside High School Wellness Center was closed from April 2020 through the end of the reporting period due to COVID. Those students accessed services though our Main Site at 1301 Fayetteville Street.

Table 5-Staffing and Utilization

Edit 04144: Inter-year Patients questioned - On Health Care for the Homeless - A large change in Mental Health patients from the prior year is reported on Line 20 Column C. (PY =(178), CY = (121)). Please correct or explain.

Related Tables: Table 5(HCH)

William Seagroves (Health Center) on 02/12/2021 7:29 AM EST: There was an overall decrease in Homeless patents from PY to CY. In addition, the social worker who works at Homeless went out on maternity leave in November.

Edit 06376: Substance Use Disorder Visit per Patient in Question - On Health Care for the Homeless - Substance Use Disorder visits per Substance Use Disorder patient varies substantially from national average. CY (1.74); PY National Average (6.88). Please correct or explain.

Related Tables: Table 5(HCH)

William Seagroves (Health Center) on 02/12/2021 1:32 PM EST: We screen all patients for substance use disorder, so our denominator is likely inflated. The LCSW assigned to SUD is only in clinic 40% of the clinic days, and so cannot reach all patients on an as-needed basis. Additionally, one of our providers, who is in clinic 60% of the time, is board certified in internal medicine and psychiatry, and thus handles many of the substance use disorder visits directly, which would not be coded as SUD visits. Additionally, our primary LCSW has been out on leave for the last 2.5 months of the year, and so the LCSW that covers SUD has been doing a broader scope of work, and some visits may not be coded as SUD despite doing this type of work.

Table 5-Staffing and Utilization

Edit 00124: Internist Productivity Questioned - A significant change in Productivity (visits/FTE) of Internists on Line 3 (2951.63) is reported from the prior year (2347.78). Please check to see that the FTE and visit numbers are entered correctly.

Related Tables: Table 5(UR)

William Seagroves (Health Center) on 02/12/2021 7:18 AM EST: The numbers are correct. When Lincoln started doing telehealth combined with in person visits our show rates dropped from 32% down to 4%. We believe this is why there was a significant change in productivity.

Edit 00123: Ob/Gyn Productivity Questioned - A significant change in Productivity (visits/FTE) of Obstetrician/Gynecologists on Line 4 (3362.5) is reported from the prior year (4330). Please check to see that the FTE and visit numbers are entered correctly.

Related Tables: Table 5(UR)

William Seagroves (Health Center) on 02/12/2021 7:19 AM EST: This is correct. Due to COVID we had fewer patients to be seen in OB/GYN due to fear of the virus.

Edit 00052: Dentist Productivity Questioned - A significant change in Productivity (visits/FTE) of Dentists on Line 16 (1771.32) is reported from the prior year (2230.72). Please check to see that the FTE and visit numbers are entered correctly.

Related Tables: Table 5(UR)

William Seagroves (Health Center) on 02/12/2021 7:22 AM EST: LCHC's Dentist before COVID had two chairs (patients) per half hour. After COVID this went down to one chair (patient) due to the extra cleaning required in between patients.

Edit 04143: Inter-year Patients questioned - On Universal - A large change in Mental Health patients from the prior year is reported on Line 20 Column C. (PY = (4067), CY= (2718)). Please correct or explain.

Related Tables: Table 5(UR)

William Seagroves (Health Center) on 02/12/2021 7:27 AM EST: LCHC loss Mental Health staff in calendar year 2020. Lincoln saw case managers and Licensed Clinic Social Workers leave. It also say a decrease in patients due to COVID19.

Edit 06375: Substance Use Disorder Visit per Patient in Question - On Universal - Substance Use Disorder visits per Substance Use Disorder patient varies substantially from national average. CY (1.64); PY National Average (5.68). Please correct or explain.

Related Tables: Table 5(UR)

William Seagroves (Health Center) on 02/12/2021 7:33 AM EST: Lincoln had a Licensed Clinical Addition Specialist (LCAS) provisional. She is in the process of getting her hours that she needs to get her license. All of her encounters went into case management. Lincoln only has one other LCAS that works 8 hours a week at its Homeless Shelter. Those are the only ones showing.

Edit 04147: Inter-year Patients questioned - On Universal - A large change in Other Professional Services patients from the prior year is reported on Line 22 Column C. (PY = (855), CY= (279)). Please correct or explain.

Related Tables: Table 5(UR)

William Seagroves (Health Center) on 02/12/2021 7:38 AM EST: Lincoln's Other Professional Services was staffed by a Nutritionist. This person left due to COVID in April 2020. Lincoln has been recruiting but unable to find a replace as of today.

Edit 04149: Inter-year Patients questioned - On Universal - A large change in Enabling Services patients from the prior year is reported on Line 29 Column C. (PY = (3137), CY = (2339)). Please correct or explain.

Related Tables: Table 5(UR)

William Seagroves (Health Center) on 02/12/2021 7:40 AM EST: LCHC loss Mental Health staff in calendar year 2020. Lincoln saw case managers and Licensed Clinic Social Workers leave. It also say a decrease in patients due to COVID19.

Table 6A-Selected Diagnoses and Services Rendered

Edit 03498: Pap Test Patients Questioned - On Health Care for the Homeless Report, the number of patients who had a pap test reported (7) on Table 6A is low based on the number of women aged 21-64 (97) reported on Table 3A Healthcare for the Homeless report. If you use an alternate code for pap tests, add it to the table comments.

Related Tables: Table 6A(HCH), Table 3A(HCH)

William Seagroves (Health Center) on 02/12/2021 7:41 AM EST: The numbers have been verified and are correct.

Table 6B-Quality of Care Indicators

Edit 07437: Line 20a Universe in Question - You are reporting (97.19)% of total possible medical patients in the universe for the HIV Screening measure (Table 6B, Line 20a Column A). This appears high compared to estimated medical patients in the age group being measured. Please review and correct or explain.

Related Tables: Table 6B, Table 3A(UR), Table 4(UR), Table 5(UR)

William Seagroves (Health Center) on 02/12/2021 7:56 AM EST: This is correct and has been verified.

Edit 05866: Line 20 Compliance Rate Questioned - A compliance rate of 100% is reported for the Newly Identified HIV Cases and Follow-up measure, Line 20. Please review the reporting

of Column c in relation to the sample or universe reported in Column b for accuracy and correct or explain.

Related Tables: Table 6B

William Seagroves (Health Center) on 02/12/2021 7:47 AM EST: This has been verify and is correct.

Edit 06015: Missing Clinical Measure - The reporting of Sealant To First Molars measure appears to be missing. Please report the data on Table 6B Line 22 for this measure or explain.

Related Tables: Table 6B, Table 5(UR)

William Seagroves (Health Center) on 02/11/2021 8:27 AM EST: Lincoln's dental department does not see children. All children are referred to the local health department

Table 7-Health Outcomes and Disparities

Edit 05042: Birthweights by Hispanic and racial categories questioned - The total number of Other Pacific Islander births reported is greater than the total number of patients of that race reported on Table 3B. Please correct or explain.

Related Tables: Table 7, Table 3B(UR)

William Seagroves (Health Center) on 02/15/2021 2:14 PM EST: This has been verified and is correct.

Edit 03957: Low Birthweights Questioned - The Black/African American LBW and VLBW percentage of births reported appears low. Please correct or explain. CY (3.64%); PY National Average (11.94)%

Related Tables: Table 7

William Seagroves (Health Center) on 02/15/2021 2:14 PM EST: This has been verified and is correct.

Edit 05046: Birthweights by Hispanic and racial categories questioned - The total number of 'More than one race' births reported is greater than the total number of patients of that race reported on Table 3B. Please correct or explain.

Related Tables: Table 7, Table 3B(UR)

William Seagroves (Health Center) on 02/15/2021 7:14 AM EST: One mother had triplets.

Edit 05549: Low Birthweights Questioned - The total 'Unreported/Refused to Report Race' (Line 1g+2g) LBW and VLBW percentage of births reported appears high. Please correct or explain. CY (10.39)% ;PYN (6.93)%

Related Tables: Table 7

William Seagroves (Health Center) on 02/15/2021 2:14 PM EST: This has been verified and is correct.

Edit 01326: Number Delivering Questioned - The Total Line i Column (1a) (205) on Table 7 seems high when compared to the Total Patients (Sum lines 1-5) Line 6 Column (a) (212) on Table 6B. If deliveries are correct, check to see that all women served have been counted, not just those who entered treatment this year. Please correct or explain.

Related Tables: Table 7, Table 6B

William Seagroves (Health Center) on 02/15/2021 2:15 PM EST: This has been verified and is correct.

Edit 05467: Hypertension Universe in Question - The universe of hypertensive patients reported on Table 7 is greater than the total hypertensive patients reported on Table 6A. This is possible only if you have seen hypertensive patients during the year without diagnosing them with hypertension. Please review and correct or explain.

Related Tables: Table 7, Table 6A(UR)

William Seagroves (Health Center) on 02/12/2021 10:41 AM EST: Based on the UDS manual there are slightly different diagnoses codes between the requirement of 6A and 7. This accounts for the difference.

Edit 05468: Diabetic Universe in Question - The universe of diabetic patients reported on Table 7 is greater than the total diabetic patients reported on Table 6A. This is possible only if you have seen diabetic patients during the year without diagnosing them with diabetes. Please review and correct or explain.

Related Tables: Table 7, Table 6A(UR)

William Seagroves (Health Center) on 02/12/2021 10:45 AM EST: Based on the UDS manual there are slightly different diagnoses codes between the requirement of 6A and 7. This accounts for the difference.

Table 8A-Financial Costs

Edit 04125: Cost Per Visit Questioned - Dental Care Cost Per Visit is substantially different than the prior year. Current Year (183.34); Prior Year (137.89).

Related Tables: Table 8A, Table 5(UR)

Siglinde Schulz (Health Center) on 02/11/2021 8:43 AM EST: This is due to Covid-19: Stay at Home orders and social distancing requirements prevented normal scheduling and time spacing of appointments, resulting in decline of visits, but costs increased due to additional PPE, etc.

Edit 03948: Cost Per Visit Questioned - Substance Use Disorder cost per visit is substantially different than the prior year. Current Year (748.08); Prior Year (589.34). Please correct or explain.

Related Tables: Table 8A, Table 5(UR)

Siglinde Schulz (Health Center) on 02/11/2021 8:47 AM EST: Due to Covid 19. The social distancing requirements prevented normal scheduling and time spacing of appointments, resulting in decline of visits while costs increased.

Edit 04129: Cost Per Visit Questioned - Other Professional Cost Per visits is substantially different than the prior year. Current Year (166.75); Prior Year (86.74).

Related Tables: Table 8A, Table 5(UR)

Siglinde Schulz (Health Center) on 02/11/2021 8:49 AM EST: Due to Covid 19. Social distancing requirements prevented normal scheduling and time spacing of appointments, resulting in decline of visits while costs increased.

Edit 04136: Costs and FTE Questioned - Other Professional Services are reported on Table 8A, Line 9 (40911)(Nutritionist) and Table 5, Line 22 (0.57)(Nutritionist) . Review and confirm that FTEs relate to costs or correct.

Related Tables: Table 8A, Table 5(UR)

Siglinde Schulz (Health Center) on 02/11/2021 8:54 AM EST: We reviewed Table 8, Line 9 and Table 5, Line 22 and can confirm that the FTEs and costs are correct.

Edit 05937: Cost per Visit Questioned - Vision Cost Per visit is substantially different than the prior year. Current Year (120.74); Prior Year (91.08).

Related Tables: Table 8A, Table 5(UR)

Siglinde Schulz (Health Center) on 02/11/2021 9:00 AM EST: Due to Covid 19. Social distancing requirements prevented normal scheduling and time spacing of appointments, resulting in decline of visits while costs increased.

Edit 00016: Costs less than reasonable for staff only - (94802) reported on Table 8A Line 11c Column a are lower than typical salaries alone for the FTE (3.19) reported on Table 5 Line 26 Column a. Please correct or explain. (Cost/FTE (29718.50). May be explained if significant level of services are donated).

Related Tables: Table 8A, Table 5(UR)

Siglinde Schulz (Health Center) on 02/11/2021 9:21 AM EST: 1.0 FTE of the 3.19 reported was donated staff from our Duke Affiliates.

Edit 04137: Costs and FTE Questioned - Other Enabling Services are reported on Table 8A, Line 11g (236205) (Care Coordination) and Table 5, Line 28 (4) (Care Coordination). Review and confirm that FTEs relate to costs or correct.

Related Tables: Table 8A, Table 5(UR)

Siglinde Schulz (Health Center) on 02/11/2021 8:58 AM EST: We have reviewed Table 8A, Line 11g and Table 5, Line 28 and confirm that FTEs and Costs are correct.

Edit 03977: Costs and FTE Questioned - Other Programs and Services are reported on Table 8A, Line 12 (1656584) (WIC Program) and Table 5, Line 29a (24.58) (WIC Program). Review

and confirm that FTEs relate to costs or correct.

Related Tables: Table 8A, Table 5(UR)

Siglinda Schulz (Health Center) on 02/11/2021 9:11 AM EST: The Costs and FTEs have been reviewed and are correct.

Edit 06306: Costs and FTE Questioned - Quality Improvement is reported on Table 8A, Line 12a (214945) and Table 5, Line 29b (2). Review and confirm that FTEs relate to costs or correct.

Related Tables: Table 8A, Table 5(UR)

Siglinda Schulz (Health Center) on 02/11/2021 8:50 AM EST: We have reviewed Table 8A Line 12a and Table 5, Line 29b and can confirm that the FTEs and costs are correct.

Table 9D-Patient Related Revenue (Scope of Project Only)

Edit 03989: Self-pay numbers questioned - more collections and write-offs than charges - More collections and write-offs are reported than charges for self-pay, Line 13. Please review that proper re-allocations of all deductibles and co-payments to the self-pay category is being done. Please correct or explain. Current Year Accounts Receivable (-257726); Prior Year Accounts Receivable (81703);

Related Tables: Table 9D

Siglinda Schulz (Health Center) on 02/11/2021 9:16 AM EST: The self-pay numbers listed are correct and reflect a timing difference in actual bad debt write off made during this year.

BHCMIS ID: 040910 - LINCOLN COMMUNITY HEALTH CENTER, INC, DURHAM, NC

Date Requested: 04/05/2021 7:22 AM EST

Program Name: Health Center 330

Date of Last Report Refreshed: 04/05/2021 7:22 AM EST

Submission Status: Review In Progress

UDS Report - 2020

Comments

Summary of Tables With No Data Reported

Workforce UNIVERSAL REPORT

Reason: Insufficient Data or Not in Full Operation

Comments:

Lincoln does not have a role in health professional education/training process.

Report Comments

COVID had a significant effect on operations.

Table 3B Comments

Unreported/Refused to report race, line 7 (Universal). The number of patients reported on this line increased significantly from 2019 (10311) to 2020 (13200). Please review your data and explain or correct. -The data is correct. Many Hispanics don't understand race. They do not have this in their country. Sexual Orientation and Gender Identity (Universal & Homeless). For both the measures you reported a significant number of patients as unknown on lines 18a and 25a. Please confirm that these are patients where you did not ask and/or did not have systems in place to ask these questions. Please review your data, correct or explain. -The data is correct. It was decided by Lincoln providers and administration that providers would ask the questions around SOGI. We have reminded providers but they are uncomfortable asking elderly patients.

Table 6B Comments

Adult Weight Assessment & Follow-up. The compliance rate for this measure decreased 70% (PY) to 56% (CY). Please review your data and explain or correct. -Due to COVID many patients did telephone and video visits. In-person visits, including nurse-only visits, were offered but many patients declined. Therefore, Lincoln staff were not able to gather height and weight. Weight Assessment Counseling for Children & Adolescents. The universe as percent to estimated medical patients age 3-16 years appears high (106%). Please review and correct or explain. -Due to COVID many patients did telephone and video visits. Therefore, Lincoln staff were not able to gather height and weight.

Table 7 Comments

Diabetes. The % diabetics with poor diabetes control is 35% increased from prior year (29%) and is high compared to national average (31%) an. Please review and correct or explain. - Due to COVID many patients did telephone and video visits. Therefore, Lincoln staff were not able to gather A1C.

Table 8A Comments

Enabling Cost. Enabling cost per visit is substantially different CY (\$609) compared to national average (\$340). Case Management increased by \$216,536 or 47.45% Transportation Costs increased by \$45,116 or 37.03% Interpretation Costs increased by \$78,123 or 13.39% Overhead Allocation. Several of your line items on Table 8A have the exact same overhead allocation at 25.13% including: medical, lab & x-ray, medical other direct costs, dental, mental health, pharmacy, other professional, vision, quality improvement enabling services and non-clinical support. Facility Costs of 1,046,930 are all in the value of donated services and supplies of \$10,099,449. The facility costs of \$130,884 is for lease payments for 3 of our smaller sites not material for allocation. We elected to use accumulated costs for allocation of overhead.

Table 9D Comments

Line 1. Column B, includes \$511,567.50 PCCM fees.
